I like turning complicated ideas into systems people can actually use. I lead the AI at Scholiphi, built TermiX's AI features, and co-founded AstraTech AI, an institute in Jamshedpur that teaches by building.

EXPERIENCE

2024–now	AstraTech AI , Co-founder. AI and full-stack institute in Jamshedpur. Teaching by building.
Feb 2026–now	Scholiphi , Full Stack Developer (Lead AI). Lead the AI features of a school operating system.
Apr 2024–now	TermiX , Full Stack, then Senior, then AI Engineer. Built the AI features of a Web3 agent platform. Interviewed engineers.
Jan–Sep 2025	Pranatah Tech Solution , In-charge, Software Department. Ran the software side and built the company site.
Jan–Mar 2024	Metaline , Backend Engineer. Game platform APIs, login, forum and an on-chain data viewer. The team later became TermiX.
2023	GreenQuest , AI Vision Engineer. Trained YOLOv8 models for waste detection and the vision of an industrial cleaning robot.
Jan 2022–Jan 2024	Rudyati Pvt Ltd , Full Stack Developer. Built systems for JUSCO (Jamshedpur Utility Services): waste management, rewards, bulk generation.
2021	Freelance , Developer. A job-search app in React Native and a landing page for a job-advice platform.

SELECTED PROJECTS

Scholiphi · Since Feb 2026 ● Live School management software, and the AI inside it that teachers, parents and principals use. Full Stack Developer (Lead AI). My job. 752 commits, the most on the team, and 49 merged pull requests. Git blame credits me with 98% of the backend's AI code. TypeScript · Express · React 19 · PostgreSQL · Drizzle	TermiX · Since Apr 2024 ● Live An app where you use crypto just by chatting, and the AI that makes it work. Core engineer. I built the AI features. 23 of 27 commits on the 2024 agent bot, then about 612 commits across six TermiX repos and about 77 pull requests from my branches. TypeScript · Node.js · Koa · Next.js · NestJS
AstraTech AI · Since 2024 ● Live The AI and coding institute I co-founded in Jamshedpur, where students learn by building. Co-founder, with Shubham Singh. I lead the tech. 91 of 183 commits on the website and platform. I merged 28 of its 43 pull requests in 2025. Next.js 15 · React · TypeScript · Prisma · PostgreSQL	BSafeLink · Since Aug 2026 🔧 Building A school van app: parents book, pay and follow their child's trip live. Lead developer. Client project. 68 of 112 commits. About 68% of the backend code and all of its tests. TypeScript · Express 5 · Prisma · Supabase · PostgreSQL
PostPilot · Apr–May 2026 ✓ Built AI agents that find customers for a brand on Telegram and talk to them. Started and led it. Teammates added deploys and fixes. 56 of 74 commits. Next.js 16 · React 19 · TypeScript · PostgreSQL · Drizzle	Agent payments: x402 and AP2 on BNB Chain · Sep 2025–Jan 2026 📦 Shelved AI assistants that pay with crypto on their own, using x402 and AP2 on BNB Chain. Built inside TermiX's dashboard, plus my own demo merchants. 46 commits on the AP2 work in TermiX's dashboard. TypeScript · NestJS · React · Prisma · Express

SKILLS

AI	OpenAI · Claude · Gemini · OpenRouter · MCP · Pinecone · pgvector · ChromaDB · LangChain · ElevenLabs · YOLOv8 · OpenCV
Backend	TypeScript · Node.js · Express · NestJS · PostgreSQL · Prisma · Drizzle · Redis · BullMQ · Socket.IO · SSE · tRPC · Python
Frontend and mobile	React · Next.js · Tailwind · React Native · Expo
Web3	Solana · BNB Chain · x402 · AP2 · EIP-712
Cloud	Vercel · Docker · AWS S3 · Supabase

EDUCATION

2020–2023	BCA , ARKA JAIN University, Jamshedpur
